### **WARNING! Contamination risk from damaged plates during centrifugation.**

The plates withstand heavy loads during centrifugation. However, they can be destroyed and release the substances they contain if used improperly.

- ▶ Always observe the maximum permitted centrifugation forces.
- ▶ Read the operating manual of the centrifuge used.
- ▶ Centrifuge stacked plates at lower speed only.
- ▶ Note that organic solvents may reduce the mechanical load capability of the plates. If in doubt please contact the Eppendorf Application Support ([support@eppendorf.com](mailto:support@eppendorf.com)).

### **WARNING! Damages to health due to infectious liquids and pathogenic germs.**

- ▶ When handling infectious liquids and pathogenic germs, observe the national regulations, the biological security level of your laboratory, the material safety data sheets, and the manufacturer's application notes.
  - ▶ Wear personal protective equipment.
  - ▶ Consult the "Laboratory Biosafety Manual" (Source: World Health Organization, Laboratory Biosafety Manual, as amended) for comprehensive regulations on the handling of risk group II germs or biological materials.
